Argument	4
<u>35 U.S.C. § 112, First Paragraph, Enablement Rejection</u>	4
<i>There is no basis to interpret the phrase "an antibody" to be equivalent to "a single monoclonal antibody".</i>	4
<i>The enablement rejection is fatally flawed due to an erroneous enablement standard</i>	8
<i>The rejection ignores evidence of record, instead relying solely on the Examiner's personal opinion.</i>	10
<i>The instant claims meet the enablement standard of 35 U.S.C. § 112, first paragraph</i>	11
Conclusion	12
